January 9th, 1918

Dr. Parfitt,

Gravenhurst, Ont.

Dear Dr. Parfitt:

I feel that the University owes you an apology for not having taken into consideration the fact that when you were good enough to come on the staff to give a course of lectures on tuberculosis we entirely overlooked the necessity for setting aside a certain amount to meet your travelling expenses. I may say that the amounts given by the University to men on the staff are merely honoraria and that they are not to be taken in any sense as a payment for services rendered nor are they to be regarded as the measurement of our appreciation of the work done. I am rather at a loss to know how much I should put in for your travelling expenses for the present year. Would one hundred dollars be anything like an approximation to the expenditure ? I should be glad if you will frankly let me know the amount in order that I may have the matter attended to at the meeting of the Board of Governors on about another fortnight. With kind regards, I am,

Yours sincerely,

President.
